

BRING A NEW CHILDREN'S BOOK TO "STATE DAY"

HELP IN OUR CAMPAIGN TO PROMOTE LITERACY

The National Association of Insurance Women (International) has adopted the Literacy Program as a project and currently they are talking to several National Literacy Programs in an effort to establish a partnership. C.B. Blair; our National President has charged her RVPs with the task of spreading the word to the State Directors and the local associations.

The books that we collect at this year's "State Day" will be donated to children's shelter or day care program in the area of the hosting association. Please bring a new book for a child in any age range from infants to teens and help to promote Literacy.

Additional information will be available at "State Day" as to what you can do on a local level to participate and promote this program.
